ANNUAL REPORT

OF THE

ALBERTA HOSPITALIZATION BENEFITS PLAN

1962

December 31st, 1963.

TO HIS HONOUR, J. PERCY PAGE,  
Lieutenant Governor of the Province of Alberta.

SIR:

I have the honour to transmit herewith the Annual Report of the Hospitals Division of the Department of Public Health for the year 1962.

I have the honour to be, Sir,

Your obedient Servant,  
J. DONOVAN ROSS, B.A., M.D.,  
Minister of Health.

December 31st, 1963.

TO THE HONOURABLE DR. J. DONOVAN ROSS,  
MINISTER OF HEALTH,  
Administration Building, Edmonton, Alberta.

SIR:

I have the honour to submit herewith the Annual Report of the Hospitals Division of the Department of Public Health for the year 1962.

I have the honour to be, Sir,

Your obedient Servant,

J. D. CAMPBELL, M. Com., F.C.A., R.I.A.,  
Executive Director of Hospitals Division.

# INTRODUCTION

1. ADMINISTRATIVE RESPONSIBILITY

This report covers the period January 1st to December 31st, 1962, which is the fourth complete year of operation of the Alberta Hospitalization Benefits Plan. No change was made in the administrative responsibility during this period. An Order-in-Council effective October 1st, 1962, changed Mr. J. D. Campbell's title from Director to Executive Director.

Hospitals Division responsibility is the administration of the provisions of the Alberta Hospitals Act which includes responsibility for the administration of the Agreement with the Government of Canada respecting conditions laid down under the Hospital Insurance and Diagnostic Services Act (Canada). In general this encompasses the following areas: approval of the location and the construction of hospitals; the payment to hospitals for their capital and operating expenses including the determination of the maximum levels of the provincial payments; the determination and maintenance of adequate standards of services rendered by hospitals

including inspection of hospitals and examination of their operation; the collection and compilation of financial and statistical information for use in the administration and development of the Alberta Hospitalization Benefits Plan and for submission to the Government of Canada, research and surveys related to the operation and development of the hospitalization plan in Alberta.

In December 1962, eight members of the Hospitals Division formed a Custodial Care Study Committee which was established by Order-in-Council to investigate all matters concerning custodial care and to prepare recommendations for the implementation of a custodial care service in Alberta.

The cost of administration is now being maintained at what is considered to be a very reasonable level at approximately .4% of the total expenditures of the Hospitals Division including payments on capital debt but excluding capital grant outlays involved in respect to construction which is also administered by the Hospitals Division. Tables 1 and 2 set out the experience in this regard.

TABLE 1: HOSPITALS DIVISION—COST OF ADMINISTRATION

FISCAL YEARS ENDED MARCH 31st					
	1959	1960	1961	1962	1963
Total Cost of Administration of Hospitals Division	\$ 116,400	\$ 128,453	\$ 160,702	\$ 202,930	\$ 215,652

Tuition Fees Covered		135.00
Miscellaneous	24.36	
TOTAL	\$202,930.41	\$215,652.19

2. SUMMARY OF CHANGES IN THE PLAN

Details concerning eligibility and the benefits provided under the Alberta Hospitalization Benefits Plan as at the end of 1962 are given in Appendix 25.

Effective April 1st, 1962, the co-insurance payment payable by the Hospitals Division on behalf of maternity patients and their newborn was terminated. From this date the patient is responsible for the co-insurance payment.

The Home Confinement Grant of \$40.00, provided to all women confined at home, was discontinued effective July 1st, 1962.

Payments for out-of-province hospital benefits were changed at the start of the year. For hospital care in Canada the payment was changed from a fixed rate depending upon the size of the hospital to the standard ward rate of the hospital less the co-insurance payment applicable in Alberta. This meant that Albertans could receive standard ward care in any hospital in Canada at a cost of not more than \$2.00 per day. For hospital care outside Canada the previous fixed rate was reduced

by the amount of the co-insurance payment applicable in Alberta. The maximum amount paid for hospital care outside Canada is \$18.00 per day instead of \$20.00 per day.

### 3. FINANCING THE ALBERTA HOSPITALIZATION BENEFITS PLAN

The cost of hospitalization provided under the plan is shared by the patient, the municipalities, the Government of Alberta and the Government of Canada. Since

the contributions to be made by the patients and each of the three levels of government are not on a uniform basis, the proportions in which costs are shared varies slightly from year to year. In 1962, the sharing of costs was also affected by allocating to the patient's share the co-insurance charges for maternity patients and their newborn infants which prior to April 1st, 1962, had been a provincial responsibility.

The amounts and proportions in which costs under the plan have been shared is shown in Table 3.

TABLE 3: SHARING OF THE COST OF THE ALBERTA HOSPITALIZATION BENEFITS PLAN

	1959		1960		1961		1962	
	Amount	%	Amount	%	Amount	%	Amount	%
Patient's Share .....	\$ 3,335,840	8.6	\$ 3,724,201	8.0	\$ 3,900,505	7.4	\$ 4,673,887	8.5
Municipal Share .....	5,382,443	13.9	6,289,033	13.5	6,589,310	12.6	7,068,729	12.8
Provincial Government Share .....	14,689,456	37.9	18,406,803	39.5	21,652,679	41.3	20,038,685	36.3
Federal Government Share .....	15,345,669	39.6	18,200,794	39.0	20,310,633	38.7	23,423,417	42.4
	\$38,753,408	100.0	\$46,620,831	100.0	\$52,453,127	100.0	\$55,204,718	100.0

#### The Patient's Share

In the development of the Plan it was thought that the patient should be responsible for the costs which his admission to hospital created. At the outset the daily co-insurance charge assessed against in-patients under the plan approximated the additional costs incurred by the hospital in housing, feeding and caring for a patient as distinct from the standby costs incurred in maintaining the hospital in a condition of being ready to accept and care for in-patients. The rates for co-insurance charges have remained relatively unchanged since 1958 while increases in costs have occurred with the result that the original relationship does not now exist. In 1959, the first complete year of operation of the Plan, co-insurance charges amounted to \$4,792,000 and represented 12.4 per cent of the cost of the Plan. In 1962, co-insurance charges amounted to \$5,708,000 and represented 10.3 per cent of the costs of the Plan.

The patient's share of the cost of the Plan is somewhat less than the total co-insurance charges since the plan covers these charges for social welfare recipients and certain other classes of patients. The increase in the share of costs borne by the patients in 1962 over 1961 represents in part the effect of the decision by the Government to include in the patient's share the co-insurance charges for maternity patients and their newborn infants. These two classes of patients account for co-insurance charges in excess of \$600,000 a year at existing rates.

The extent to which the patient's portion represents an out-of-pocket payment at the time the hospitalization occurs and may act as a deterrent is difficult to estimate. However, it is known that to a significant extent co-insurance charges are not paid by the patients themselves but are paid on their behalf by the Alberta Blue Cross Plan and other insurers as well as by certain departments of the federal government.

#### The Municipalities' Share

The basic responsibility of municipalities towards the operating and capital costs of the hospitalization plan has been set at the equivalent of a levy of 4 mills on an equalized assessment. Their contribution is paid into the Provincial Treasury through the Department of Municipal Affairs. Although the levy on municipalities has increased from \$5,382,443 in 1959 to \$7,068,729 in 1962, their share of the cost of the plan in 1962 was 12.8 per cent, whereas in 1959 it represented 13.9 per cent. Not included in this calculation are amounts for which certain municipalities have become liable as owners of hospitals, through agreements with owners of hospitals or through undertaking to provide hospital benefits which are in addition to those provided by the Plan. This liability does not fall uniformly on all municipalities and its significance in relation to the plan is the extent to which municipalities are meeting costs not covered by the Plan either because of the nature of the service for which the expenditure was made or because the level of expenditures was higher than established standards. Further comments on this area of municipal responsibility follow in a later section of this report.

#### The Federal Government's Share

The recovery of costs which the Province obtains from the Government of Canada is determined on the basis of a formula prescribed in the Federal Hospital Insurance and Diagnostic Services Act and the regulations thereunder. The overall contribution by the federal government to all of the provinces towards the cost of insured in-patient hospitalization is basically equal to one-half of the total of the costs of providing these services by the provincial plans, excluding the cost of buildings, renovations, interest on operating and

capital debt and co-insurance charges paid by the Province. The federal contribution is distributed among the provinces on the basis of twenty-five per cent of the shareable costs incurred by each of the provinces; the other half of the federal contribution is distributed on the basis of the twenty-five per cent of the average cost per capita of all of the provincial plans multiplied by the number of residents covered by each of the provincial plans.

The population of Alberta in 1962 excluding members of regular Canadian Forces and RCMP was 1,358,000 or approximately 7.37 per cent of the population of Canada eligible for coverage under Provincial Plans. Thus if the Alberta Plan's outlay for shareable items were increased by \$1,000,000, the federal government's contribution to all provincial plans would be increased by \$500,000 of which \$250,000 would accrue directly to this province and \$250,000 would accrue to all provinces in proportion to the number of insured residents. Of this latter amount Alberta would receive 7.37 per cent or \$18,425. Thus Alberta's total additional recovery from Canada as a result of the additional expenditure of \$1,000,000 would be \$268,425 or 26.84 per cent.

This aspect of the federal reimbursement formula has the control feature that 73.16 per cent of the additional costs resulting from expansion of services or increases in cost levels in relation to in-patient hospitalization is borne by the Alberta Government.

The foregoing represents the marginal situation only since the federal government also contributes to Alberta 7.37 per cent of one quarter of the shareable expenditures made by all the other provincial plans.

The estimated amount of the federal contribution to Alberta for 1962 is equal to 51.36 per cent of the Alberta costs which may be included in the costs upon which the federal contributions are calculated. The comparable ratios for preceding years were 49.48 per cent in both 1959 and 1960 and 49.76 per cent in 1961.

Certain of the costs of the Alberta Plan are included only partially or not at all in the costs upon which federal contributions are calculated. Among these excluded costs are co-insurance charges paid by patients and the province, the cost of buildings, renovations, capital debt retirement and interest on capital debt and bad debt allowances. These costs have been included in the cost of the Alberta Hospitalization Benefits Plan shown in Table 3 and in the sharing of costs shown in that table.

#### The Provincial Government's Share

The provincial government occupies the residual position in respect to the cost of the hospitalization plan within the approved cost ceilings.

The principal areas in which the province has accepted financial responsibility but which are not wholly included in the costs upon which the federal contributions are calculated are the payment of co-insurance charges for social welfare recipients and certain other patients, building renovations, interest and repayment of capital debt.

In 1962 co-insurance payments by the Province amounted to \$877,718 a reduction of \$518,638 from 1961, due principally to the discontinuance of payment by the province of co-insurance charges for maternity patients and newborn infants after March 31st, 1962.

As a part of the financing of the hospitalization plan, the provincial government, since January 1959, has paid hospitals immediately prior to the due dates the amounts due for interest on capital debt and for amortization of the principal. Although the debentures are obligations of the owners of the hospitals, under the existing situation they also represent an obligation for future payments by the Province to the hospitals.

Table 4 which follows shows the payments for principal and interest on approved capital debt for each of the past four years, and the increase each year in the outstanding debt of the hospitals.

TABLE 4

	CAPITAL DEBT OF GENERAL AND AUXILIARY HOSPITALS			
	1959	1960	1961	1962
Principal Payments .....	\$ 1,324,995.38*	\$ 2,136,987.54	\$ 2,277,673.00	\$ 2,629,750.18
Interest Payments .....	1,174,662.59*	1,812,511.10	2,038,902.73	2,413,156.40
Borrowings .....	6,594,306.77	5,993,205.13	8,491,518.78	7,913,203.00
Increase in Debt .....	5,269,311.39	3,856,217.59	6,213,845.78	5,283,452.82
Balance Dec. 31 .....	\$43,815,489.56	\$47,671,707.15	\$53,885,552.93	\$59,169,005.75

\*The portions of payments which accrued during 1958 but were not due until 1959 were not included in 1959 Provincial payments.

#### 4. OTHER HOSPITALIZATION COSTS NOT UNDER THE PLAN

Certain costs for hospital services were not covered by the Plan and their cost became the responsibility of the patients, the owners of the hospital and other parties. Included in the patients' responsibility were amounts payable on their behalf by governmental or insuring agencies and included in the owners' responsibility were amounts which ultimately were paid by the municipalities either as owners of hospitals or through agreements with the owners of hospitals.

#### OTHER HOSPITALIZATION COSTS—1962

##### 1. Patients Responsibility

(a) Patients not eligible for benefits		
Non-residents .....	\$ 893,362	
Patients covered by Workmen's Compensation Act .....	1,049,504	
Patients covered by Federal Legislation ....	460,626	
Patients whose hospitalization was deemed unnecessary .....	1,051	
Hospitalization, the cost of which is recovered through claims for damages .....	155,312	\$2,559,855
(b) Services not covered by the Plan		
Preferred accommodation .....	\$ 822,943	
Out-patient services .....	1,920,640	
Other excluded services .....	11,814	2,755,397
		<u>\$5,315,252</u>

## OTHER HOSPITALIZATION COSTS—1962 (Con't).

## 2. Responsibility of the Owners of Hospitals

	Municipally Owned Hospitals	Other Hospitals	Total
Operating Costs in excess of the level approved for reimbursement by the Plan .....	\$799,233	\$ 55,357	\$854,590
Employee fringe benefits in excess of approved levels .....	40,651	2,911	43,562
Interest on operating loans .....	18,215	7,042	25,257
Other expenditures not approved for reimbursement by the Plan ....	6,086	9,535	15,621
	<u>\$864,185</u>	<u>\$ 74,845</u>	<u>\$939,030</u>

## 3. Responsibility Accepted by the Provincial Government

Out-patient Services to Pensioners .....	\$80,706	
Net Cost. University Hospital Out-patient Clinics..	73,689	
Home Confinements .....	5,280	\$159,675

## 4. Other Sources

Direct Costs of Research Projects at University Hospital .....	\$228,944
TOTAL of Items 1, 2, 3, and 4 .....	<u>\$6,642,901</u>

## 5. HOSPITALS OPERATING UNDER THE PLAN

There are basically five types of institutions which operate under the Alberta Hospitalization Benefits Plan.

**Approved General Hospitals** are general treatment hospitals in Alberta, and the Lloydminster Hospital (situated in Saskatchewan but partly owned by Alberta) which primarily provide "short-term" hospitalization. On December 31st, 1962, there were 103 approved general hospitals in operation whose total rated capacity was 8,069 beds and 1,521 bassinets.

**Approved Auxiliary Hospitals** are institutions for patients who require hospital care but not as intensive care as would be provided by approved general hospitals. Auxiliary Hospital care is provided for the treatment of the chronically ill on the following basis.

- (a) The treatment of patients and their rehabilitation to the extent that the patients can return either temporarily or permanently to the community.
- (b) The treatment of patients who require hospital care for an extended period of time, but who have little or no prospects for rehabilitation but require the skilled nursing and medical care which is available only in a hospital.

On December 31st, 1962, there were 16 approved auxiliary hospitals in operation with a total rated capacity of 1,229 beds.

**Contract Hospitals** are privately owned hospitals which are not approved general hospitals but which are under contract with the Hospitals Division to provide hospital care that is similar to that of general hospitals. At December 31st, 1962 there were three contract hospitals in operation under the Plan representing a total rated capacity of 33 beds and 9 bassinets which is an increase of 13 beds and 5 bassinets over 1961.

The contract hospital in Bonnyville now operated by the Duclos Hospital Society was formerly in operation under the auspices of the United Church of Canada as the Katherine H. Prittie Hospital which ceased operations on June 30th, 1962.

**Contract Nursing Homes** are institutions temporarily under contract with the Hospitals Division to provide auxiliary hospital care. These temporary contracts were made because of a temporary shortage of auxiliary hospital accommodation.

On December 31st, 1962, there were 29 contract nursing homes with a bed capacity of 1,051. This figure is the same as it was at January 1st, 1962.

**Federal Hospitals** are hospitals operated by the Departments of the Federal Government. Federal Hospitals are reimbursed by the Hospitals Division for such of their in-patients as are eligible for insured services under the Alberta Hospitalization Benefits Plan. As at December 31st, there were six federal-general hospitals with a rated capacity of 1,018 beds and 33 bassinets. The Hobbema Indian Hospital which had a rated capacity of 22 beds and 6 bassinets ceased operation as a hospital as of January 1st, 1963.

Tables 5 and 6 set out the statistical data in respect to the hospitals operating under the Alberta Hospitalization Benefits Plan.

TABLE 5: DISTRIBUTION OF HOSPITALS OPERATING UNDER THE ALBERTA PLAN BY TYPE OF HOSPITAL INDICATING RATED CAPACITY AS AT DECEMBER 31, 1962 AND VOLUME OF CARE DURING THE YEAR 1962

Type of Hospital	No. of Hospitals	RATED CAPACITY		DAYS OF CARE		PATIENTS UNDER CARE		Beds Per 1,000 Population
		Beds	Bassinets	Adults and Children	Newborn	Adults and Children	Newborn

HOSPITALS & NURSING HOMES OPERATING UNDER  
THE ALBERTA PLAN 1962, BY WARD UNIT

(EXCLUDING DOMICILIARY BEDS)

## **GENERAL SECTION**

## 6. PAYMENTS MADE BY HOSPITALS DIVISION

Table 7 gives details of the expenditures made during each of the calendar years 1959 to 1962. In 1962, total expenditure by the Province of Alberta, through the Hospitals Division for various aspects of the hospitalization programme, other than for new construction, amounted to \$50,281,359. This figure excludes expenditures of mental and tuberculosis hos-

pitalization as well as costs of the Cancer Clinics and Provincial laboratories and represents a 4.2% increase over expenditures of the previous year. In comparison, the increase from 1959 to 1960 was 19.9%, and a 12.9% increase from 1960 to 1961. Percentage increases (decreases) for the various types of expenditures from 1961 to 1962 are also given in Table 7. A breakdown of payments made to each hospital is given in Tables 42 and 50 of the Appendix.

TABLE 7: BREAKDOWN OF PROVINCIAL EXPENDITURES THROUGH THE HOSPITALS DIVISION ON HOSPITALIZATION SERVICES, HOSPITAL EQUIPMENT AND CONSTRUCTION, FOR EACH OF THE CALENDAR YEARS 1959, 1960, 1961 and 1962

## 7. PAYMENTS OF CO-INSURANCE CHARGES BY HOSPITALS DIVISION

During 1962 the Hospitals Division paid a total of \$877,718 in co-insurance charges in respect of certain categories of patients. This covered 450,782 adult and child patient days and 58,672 newborn days distributed as follows in Table 8. It will be noted that Social Service recipients accounted for 69.8% of the total days paid.

TABLE 8  
PATIENT DAYS FOR WHICH CO-INSURANCE WAS PAID BY HOSPITALS DIVISION 1962

Type of Benefit	Number of Patient Days Co-insurance	Percentage of Days
Newborn (3 months)	58,672	11.5%
Maternity (3 months)	58,554	11.7
Social Service Recipients	355,566	69.8
Cancer	20,341	4.0
Polio	13,768	2.7
Arthritis	1,553	.3
Total	509,454	100.0%

## 8. THIRD PARTY LIABILITY

Where a person has received hospitalization benefits under Alberta's Hospitalization Benefits Plan and is

legally entitled to recover the cost of hospitalization from some other person by way of damages for injury caused by negligence or other wrongful act, the province is entitled to recover all or part of their costs for hospitalization provided. Following is comparative experience for the past three years.

TABLE 9  
THIRD PARTY LIABILITY NET RECOVERIES

Year of Recovery	Total Net Recoveries
1960	\$ 83,749.15
1961	140,948.06
1962	159,661.78
Total Net Recoveries	\$384,358.99

## 9. OUT-OF-PROVINCE HOSPITALIZATION

Out-of-province hospitalization for Alberta Hospitalization Benefits Plan beneficiaries is presented in Table 10. Of the 25,774 Adult and Child patient days in 1962, 3,154 were incurred in the United States, 285 in other countries and the remainder in other provinces of Canada.

Newborn .....	1.94	2.83	4.57

## 10. HOSPITAL CONSTRUCTION

During 1962 a total of 571 beds and 54 bassinets in general hospitals and 761 beds in auxiliary hospitals and 107 beds in nurses' residences were completed. Of the 571 general hospital beds, 378 represented additional beds while the remainder represented replacements. Detailed information appears in Table 11.

In addition to the above, as at December 31, 1962, there were 4,461 (including 1,525 replacements) new hospital beds, 414 bassinets (140 replacements) and 610 nurses' residence beds under construction or in various stages of planning. Details are given in Table 12. The total provincial commitment for new construction not yet completed amounts to \$63,528,141 as at December 31st, 1962.

# INCREASES IN POPULATION AND RATED BED CAPACITY, ADMISSIONS AND PATIENT DAYS OF GENERAL HOSPITALS, 1953 - 1962

(EXCLUDING NEWBORNS AND BASSINETS)

## 11. TRENDS IN RATED BED CAPACITY AND UTILIZATION

Table 13 presents a historical summary of the supply of hospital beds in Alberta and their utilization. It will be noted that the auxiliary hospitals are showing a gradual increase in relative number of days of care from 1960 to 1961 to 1962 being 213, 225 and 284 days per thousand population respectively. Similarly, the number of days of care in federal hospitals and contract nursing homes indicates a decrease in the relative utilization of these two types of institutions. This situation is also reflected in the ratio of beds to population. While the total number of beds per thousand population was 8.3 in both 1961 and 1962 it will be noted that number of beds in contract nursing homes and federal hospitals have again shown a slight decrease in their proportion of the total.

The average length of stay\* in approved general hospitals has increased from 8.9 in 1961 to 9.1 in 1962, while there has been a decrease in all the other types of institutions. The average length of stay in auxiliary hospitals decreased from 459.6 to 349.8. In contract nursing homes the decrease was from 565.4 to 494.5, while in federal hospitals the average length of stay decreased to 27.0 in 1962 from 29.5 in 1961. The number of admissions and patients under care for all institutions in relation to population during these years shows a gradual decrease while days of care decreased from 1960 to 1961 and then increased from 1961 to 1962. During 1962 rates per 1,000 population (with 1961 figure in brackets) for total admissions was 197 (199), total patients under care 204 (205) while number of days of care per 1,000 population was 2,456 (2,418).

\*Average length of stay measured in in-patient days.

\* Admissions to Auxiliary Hospitals and Contract Nursing Homes together totalled approximately 1 per 1000 population in each year.

† Information not available.

‡ Federal census of Alberta. Inter-censal estimates by the Dominion Bureau of Statistics. Population figures include Indians and members of the Armed Forces.

## 12. PREVALENCE OF DISEASE AND FREQUENCY OF OPERATIONS

Table 14 presents a summary by primary diagnosis of Alberta residents hospitalized in 1962. For comparative purposes, the information is given separately for general hospitals (including federal and out-of-province hospitals) and for auxiliary hospitals (including contract nursing homes).

Table 15 lists the 25 most frequent primary operative procedures performed in general hospitals.

The information for general hospitals in the above-mentioned tables is based on Alberta residents hospitalized in approved general hospitals plus provincial plan patients in federal and out-of-province hospitals.

Table 52 in the appendix provides a more complete breakdown of primary diagnosis by type of hospital while Table 51 is an analysis of patients "still-in" in auxiliary hospitals and contract nursing homes as at December 31, 1962.

### 13. SEPARATIONS AND DAYS BY AGE, SEX AND LENGTH OF STAY

Table 16 presents an analysis of the separations and days in approved hospitals and federal hospitals as well as those hospitalized outside of the province. Table 47 in the Appendix presents similar information for patients for 1961. The information in this table excludes patients in auxiliary hospitals and contract nursing homes.

# 14. GROSS EXPENDITURES—OPERATING COSTS

Table 17 presents the costs for Approved General Hospitals in regards to gross expenditures and salaries and wages. It will be noted that gross expenditures increased 13.1% from 1961 to 1962 which is the largest increase since 1959. Salaries increased by 9.8% from 1961 to 1962 and salaries comprised 62.9% of total expenditure in 1962 as against 64.8% in 1961.

Tables 18 and 19 indicate comparative experience for General Hospitals and Auxiliary Hospitals for 1961 and 1962. The amount of the increases as well as the costs per meal day for food and for other expenditures per patient day are given. The increase in volume of services is indicated when one notes that although gross costs increased by 13.1% and 39.5% respectively in General and Auxiliary Hospitals the per patient day cost increase was 8.7% and 7.1% respectively.

Effective April 1st, 1962, the Local Authorities Pension Plan became available to employees of approved hospitals involving contributions of 5% of salary by the employee and 6% by the hospital. The difference of 1% is accounted for by the non-contribution service of hospital personnel prior to the commencement date of the pension plan.

Depreciation expenses included in the tables are as reported by the hospitals and are not computed on a uniform basis.

## 15. PERSONNEL AND PAID HOURS OF WORK

Table 20 lists numbers of staff employed in hospitals as at December 31, 1962 by category of personnel. The information is shown separately for approved general hospitals and approved auxiliary hospitals and includes full-time and part-time employees. There were 12,739 full-time and 928 part-time employees in approved general hospitals as against 12,087 and 853 at the end of 1961. In general hospitals, nursing department staff increased to 7,528 full-time and 379 part-time persons from 6,954 and 348 respectively in 1961. The total number of other professional and technical personnel in general hospitals was 858 full-time and 63 part-time persons in 1962 as against 760 and 50 respectively in 1961. In general hospitals "Other Nursing Department Personnel" are approximately one-seventh of all nursing department staff while in auxiliary hospitals they make up one-half of the nursing department staff.

In Table 21 paid hours of work, percentage distribution and rates per patient day are summarized by department for the two types of hospitals. The average total hours of work per patient day for all general hospitals remained 11.4, the same as in 1961. In auxiliary hospitals average total hours of work per patient day was 5.1 in 1962 as against 5.0 in 1961.

## 16. LABORATORY SERVICES

Selected summary information of laboratory services in general hospitals from 1959 to 1962 is given in Table 22. Units of service per patient and per patient day have continued the upward tendency during 1962. Units per in-patient increased from 24.2 in 1961 to 25.6 in 1962, while units per in-patient day increased from 2.7 in 1961 to 2.9 in 1962.

TABLE 22  
VOLUME OF LABORATORY WORK UNITS PERFORMED IN  
HOSPITAL OR REFERRED OUT

Item	1959	1960	1961	1962
Total Work done in Hospital:

Units Per In-Patient .....	19.4	20.6	24.2	25.6
Units Per In-Patient Day .....	2.2	2.3	2.7	2.9

## 17. RADIOLOGY SERVICES

Selected summary information of radiology services in general hospitals appears in Table 23 for 1962 and three previous years. Average number of films per patient in 1962 remained at 2.1, the same as in 1961, indicating that the increase in total number of films taken bears a relationship to the increase in total admissions during the year.

TABLE 23

## 18. SURGICAL SERVICES

A summary of surgical services in general hospitals for the years 1959 to 1962 is presented in Table 24. Because of a change in the annual reporting form the operating time statistics for emergency units are included in 1959, 1960 and 1961 but excluded in 1962.

TABLE 24  
SURGICAL SERVICES IN GENERAL HOSPITALS

Item	1959	1960	1961	1962
Number of Operations: .....	101,916	115,132	121,441	131,876

Post Operative Infections (per 1,000 operations) .....	5.07	4.53	4.55	4.89

\* Operating time Statistics exclude Emergency unit in 1962.

## 19. OBSTETRICAL SERVICES

Selected summary information of obstetrical services in general hospitals appears in Table 25 for 1962 and three previous years. A change in the annual reporting form in 1962 provided for a count of "immature" newborn while in prior years the classification used was "premature" newborn.

TABLE 25  
OBSTETRICAL SERVICES IN GENERAL HOSPITALS

Item	1959	1960	1961	1962
Total Deliveries .....	36,528	37,463	37,597	37,517

# **APPENDIX**

## **25 — ALBERTA HOSPITALIZATION BENEFITS PLAN — ELIGIBILITY AND BENEFITS**

## 25. ALBERTA HOSPITALIZATION BENEFITS PLAN—ELIGIBILITY AND BENEFITS

### Eligibility for Hospital Benefits

Any person who is legally entitled to reside in Canada and who makes his home and is ordinarily present in the Province is entitled to benefits under the Alberta Hospitals Act and Regulations providing:

- (a) he is not a tourist, transient or visitor in Alberta,
- (b) he is not entitled to receive hospital services or the cost thereof pursuant to the laws of any jurisdiction except The Hospitalization Benefits Act or who is, or could have become, entitled to such insured services from some other Province.

Persons moving to Alberta from a Province which provides hospital insurance will be covered by the Alberta Plan upon the expiry of the coverage they bring with them providing they qualify as a resident. In any event, however, a person moving to Alberta, from a Province which requires a person to reside in that Province for a period of time before they qualify for benefits, will not be eligible for benefits in Alberta for three months or for the period of time which is required to qualify for benefits in the Province from which they came. To qualify for benefits the payment of a premium is not required and registration is not necessary.

### Hospital Benefits Provided

The hospital benefits provided under the Alberta Hospitalization Benefits Plan include bed accommodation at a standard ward level; meals; necessary nursing service; laboratory, radiological and other diagnostic procedures; drugs, biologicals and preparations when administered in a hospital; use of operating room, case room and anaesthetic facilities, including necessary equipment and supplies; routine surgical supplies and radiotherapy and physiotherapy facilities, where available.

### Exclusions Under the Plan

Few exclusions exist under the Alberta Hospitalization Benefits Plan. With respect to drugs, the restrictions which apply are as follows.

Drugs, biologicals and related preparations are not covered under the Plan, when the supplies or drugs are not considered necessary for the treatment of the patient while in hospital, and are intended for use after discharge from hospital and drugs, which in the opinion of the hospital pharmacy committee of hospitals having 180 beds and over, and the Joint Pharmacy Committee of the College of Physicians & Surgeons of Alberta and the Associated Hospitals of Alberta, are not required for the proper treatment of the patient under standard ward in-patient care.

The patient shall pay the differential charge between standard ward hospitalization and private or semi-private accommodation when private or semi-private accommodation is provided at the patient's request.

Hospital services not requiring the patient to be admitted as an in-patient are not covered, with the

exception mentioned under "Out-patient Services". The patient receiving out-patient services is responsible for the total charge for out-patient services on the basis of a schedule of rates determined by the Hospitals Division.

The Hospitalization Benefits Plan does not cover doctors' fees or ambulance service.

External appliances such as crutches are not provided for under the Plan.

### Out-Patient Services

Out-patient hospital services are provided for persons receiving a pension or allowance who have hospitalization and medical services entitlement and are provided with a benefits card by the Department of Public Welfare.

### Chronic Hospitalization

Effective April 1st, 1959, chronic hospitalization was included under the Alberta Hospitalization Benefits Plan. The individual patient is admitted to hospital by his or her physician and providing he or she is a resident and in need of chronic hospital care the charge is \$1.50 per patient day in a chronic hospital, or the regular co-insurance charge if the patient is in an approved active treatment hospital. As a temporary measure, until sufficient Auxiliary Hospital beds are available, chronic hospitalization is also provided in certain Nursing Homes that have made contracts with the Department of Public Health and the charge to the patient is also \$1.50 per day.

### Free Choice of Hospital

The individual who is eligible for hospital benefits has a free choice of hospital within the Province of Alberta, if, in the opinion of the doctor, he needs hospital care.

Although the freedom of choice of hospital has been given to the individual, it is recognized that there are certain restrictions in regard to distance, availability of beds, attendant waiting lists, and availability of the doctor of the patient's choice which, to a degree, limits the extent to which the individual is able to take advantage of the free choice of hospital which is made available under the Alberta Hospitalization Benefits Plan.

### Length of Stay in Hospital

If the patient's doctor considers that the patient requires active treatment care, there are no limitations on the length of stay for which the patient is eligible for benefits. As the hospital service provided is active treatment care, any eligible patient in hospital, who, in the opinion of the Director of the Hospitals Division, no longer requires active treatment care shall cease to be eligible.

### Cost of Hospitalization to Residents

The individual patient is required to pay a basic amount per patient day referred to as a co-insurance

payment which shall be governed by the size of the hospital. The following rates are applicable:

- (a) In the case of all persons other than newborn infants:
  - (i) In a hospital of less than 90 beds ..... \$1.60 per day.
  - (ii) In a hospital of 90 beds, but less than 180 beds ..... \$1.80 per day.
  - (iii) In a hospital of 180 beds or more ..... \$2.00 per day.
- (b) In the case of newborn infants in any hospital ..... \$1.00 per day.
- (c) In Auxiliary Hospitals and Contract Nursing Homes ..... \$1.50 per day.

Those persons not eligible for benefits would be responsible for the full rate of the hospital which is set under the Plan.

### Free Standard Ward Hospitalization for Certain Individuals

The Province of Alberta will pay the co-insurance payment for the following residents, except when admitted to federal or contract hospitals, auxiliary hospitals and nursing homes and in hospitals outside Alberta:

- (a) persons in receipt of a pension or allowance in which the Province participates and who are authorized to hold a hospitalization entitlement card issued by the Department of Public Welfare, and the dependents of such persons;
- (b) persons whose hospitalization is authorized by an Arthritis Clinic operated by the Department of Public Health;
- (c) persons whose hospitalization has been approved by a Cancer Clinic operated by the Department of Public Health for the first seven days of hospitalization;
- (d) persons who have been afflicted by poliomyelitis and are admitted to an approved hospital for treatment as a consequence of being so afflicted.

### Third Party Liability

A person who receives hospitalization benefits under Alberta's Hospitalization Benefits Plan and who is legally entitled to recover the cost of hospitalization from some other person by way of damages for injury caused by negligence or other wrongful act, The Alberta Hospitals Act provides that the Minister of Health is entitled in such cases to recover the cost of hospitalization benefits provided to that person under Alberta's Hospitalization Benefits Plan.

When submitting a claim for the cost of hospitalization such person should include as part of the claim the Province's contribution toward his or her hospitalization, details of which may be obtained from the Hospitals Division.

### OUT-OF-PROVINCE BENEFITS

#### Coverage in Hospitals Outside Alberta

1. Qualification—A resident of Alberta qualifies for insured services in hospitals outside Alberta:
  - (a) as an emergency case while temporarily\* away from Alberta;

- (b) in an elective case when he has gone outside Alberta for recognized medical surgical treatment by a qualified physician;
- (c) if living near the Alberta border where an Alberta hospital is not readily accessible and is admitted to the closest hospital in the adjoining province;
- (d) when moving permanently from Alberta to make his home in another province participating in hospital insurance for the period of time required for a resident thereof to become eligible for insured services, and providing he had done all things required by the law of such province to become an insured person therein immediately upon becoming a resident of that province;
- (e) when moving permanently from Alberta to make his home outside Canada for the period involved in normal travelling time to the port of embarkation for the country in which he intends making his home.

\*Temporarily away, means being absent from Alberta on holiday, visit, education or business engagement with the intention of returning to Alberta. Any absence from Alberta of longer than twelve consecutive months is not considered as temporarily away except when a person leaves Alberta for the express purpose of furthering his education and who is not gainfully employed outside Alberta except for vacation employment.

### 2. Payment—

#### Hospitals in Canada

- (a) Payment for out-of-province hospital care in active treatment hospitals in Canada will be made at the standard ward rate of the hospital as set by the provincial authority under which the hospital operates less the authorized charge which applies in Alberta as follows:
 

Hospital—89 beds or less	\$ 1.60 per day
90 beds but less than 180 beds	\$ 1.80 per day
180 beds or more	\$ 2.00 per day
Newborn infants all hospitals	\$ 1.00 per day
Chronic Hospitals	\$ 1.50 per day

#### Hospitals Outside Canada

- (b) The following maximum daily payments will be made for hospital care in active treatment hospitals outside Canada providing the charges of the hospital are not less than the payment shown:
 

Hospitals—Less than 90 beds	\$14.40 per day
90 beds but less than 180 beds	\$16.20 per day
180 beds or more	\$18.00 per day
Newborn infants all hospitals	\$ 2.00 per day
Chronic Hospitals	\$ 6.00 per day

In the event the hospital account is less than the rates shown above, the rate of the hospital less the applicable co-insurance rate will be paid. In all cases the patient is responsible for a co-insurance charge which would have been paid had the patient been admitted to hospital in Alberta.

### 3. Requirements

- (a) Payment for out-of-province hospital benefits will only be made if the patient or his agent complete the required application form and provides a satisfactory hospital account and a medical statement which shows the diagnosis and the name of the operation if surgery was performed.
- (b) When the hospital account has been paid in full or part, the payment by the Department will be sent to the individual or to the hospital and individual depending upon the amount paid.
- (c) When no payment has been made on the account then the payment made by the Department will be sent directly to the hospital.
- (d) Evidence of payment on a hospital account will only be accepted if the account bears the hospital's receipt stamp or if official hospital receipts are submitted with the hospital account.
- (e) When a patient is admitted to a chronic hospital outside the province the Minister may decide to terminate hospital benefits when arrangements have not been made to return the patient to Alberta.
- (f) When a resident is admitted to hospital for a long period of care he or his agent shall notify the Hospitals Division of the Department of Public Health of the admission at the end of the second month in hospital and provide such details as may be necessary.

- (g) If a resident fails to comply with Section 3(f) hospital benefits may be terminated subsequent to the second month in hospital.
- (h) Out-of-province hospital benefits are not provided in hospitals specifically operated for the treatment of Mental and T.B. patients.

### 4.

- (a) Persons wishing to claim benefits should complete application Form PH.HD. 84 and attach to the form:
  - (i) a copy of the hospital account which should show the admission and discharge dates, the amounts charged and paid. If the account has been paid, then the account should show the official paid stamp or receipts should be included with the account.
  - (ii) a letter from the doctor who attended you giving the diagnosis and the name of the operation if surgery was performed.
- (b) After completion Form PH.HD. 84 together with attachments should be sent to:

Hospitals Division  
Department of Public Health  
Administration Building  
10820 - 98 Avenue  
EDMONTON, Alberta
